

Bridges Structural Engineering

CORPORATE PROFILE

The Phoenix Associates Group is Consulting Engineering Firm specialized in transportation and urban infrastructure. For over 10 years, the firm has been providing consulting and advisory services on infrastructure projects to a wide range of clients in the public and private sectors across the nation. Phoenix Associates is one of the leading Nigerian Consultancy Firms in the area of infrastructure, development and management. In a period of 10 years, Phoenix Associates has gained recognition for integrating state-of-the-art technology with project development in the infrastructure sector. Phoenix Associates looks after business in Lagos, Abuja and Port-Harcourt. Phoenix Associates is also active in Edo state and the Northern parts of Nigeria.

Bridges Structural Engineering

Roads and Bridges play an essential role as transportation links in the social and economic infrastructure of communities throughout the world. Phoenix Associates' broad international experience in the planning, design, construction supervision and maintenance of all types of highways continues to be an important resource for transportation projects in Nigeria.

The complexity of projects undertaken by Phoenix Associates has varied widely from lightly trafficked rural roads in remote regions to sophisticated freeway systems in highly developed urban centers. Consideration is given to the environment, aesthetics, operational safety and use of modern construction materials.
